

Tower of Pyrgoudia

40.378864, 23.944844

The tower's purpose was likely to monitor the monastery's lands and may have also functioned as an observatory, given its location at the narrowest point of the Athos peninsula.

The tower is first mentioned in 1259 and remained in good condition until 1839. Currently, it lies in ruins.

Overview

Purpose: Excursion	Type: Castle	City: Ierissos
Zip code: 630 75
