Megali Kolympithra

Although it is located right next to the very popular Mikri Kolympithra beach, it is quiet.

The main reason for this is the fact that it is exposed to the north winds with quite frequent large waves.

On the coast as well as in the sea you will find sand with clear blue waters which deepen gradually but quickly.

The beach is not organized, however you will find a limited number of sunbeds and umbrellas for rent as well as a refreshment stand to get your coffee.

Nearby is the beach of Mikri Kolympithra which is fully organized so you will find taverns if you wish to have lunch.

The main thing to mention is that the beach is considered ideal for sports activities such as sailing and windsurfing and in general for any sport that requires wind and waves.

Access to the beach is by road via the regional road that connects Komi with the settlement on the beach, while during the summer months there is also public transport from Chora to the island.

When you arrive, you won't have any particular problem finding a parking space.
